Our nursing portfolio covers a breadth of cutting-edge topics to keep you current in the everchanging healthcare landscape. Encompassing over twenty subject areas, books address subjects ranging from education to clinical practice for novice and seasoned nurses. Springer Publishing Company authors are noted scholars and practitioners in their fields, and numerous Springer Publishing Company titles are recipients of prestigious awards such as the AJN Book of the Year, Association of American Publishers Prose Awards, and stellar Doody’s Medical Reviews.

**NICHE: Nurses Improving Care for Healthsystems Elders**
The Official Guide to Leadership, Program Development, Implementation, Policy

Terry Fulmer, PhD, RN FAAN

Written by world-leading experts in gerontology nursing, this distinguished and authoritative publication serves as the “gold standard” manual for nurses working with older adults in all care settings to provide optimal, evidence-based care to their patients and to serve as change agents and leaders for effective program development, implementation of best practices, and formulation of healthcare policy.

**Watson’s Caring Science Guide to Assessing and Measuring Caring in Nursing and Health Sciences 3rd Edition**

Kathleen Sitzman, PhD, RN, CNE, ANEF, FAAN
Jean Watson, PhD, RN, AHN-BC, FAAN

This book provides essential research tools that have been reported in the literature for assessing and measuring caring for those in the caring professions. This text is the only comprehensive and accessible collection of valid and reliable instruments for care measurement in clinical and educational nursing and health professions research. The measurements address quality of care, patient, client, and nurse perceptions of caring, and caring behaviors, abilities, and efficacy.

**A Caring Science Educator’s Guide to Teaching Nursing**
Grounding Teaching in Caring, Healing, and Love

Chantal Cara, PhD, MSN, RN
Marcia Hills, PhD, RN, FAAN
Jean Watson, PhD, RN, HNC, FAAN

This important work translates the model of caring science for faculty and Caritas coaches who work within the nursing education community to strengthen caring science and love as the basis for true teaching and to infuse the learning environment with caring-healing practices for both students and faculty.

June 2019  165 pp | Paperback

**Adult-Gerontology Practice Guidelines 2nd Edition**

Jill C. Cash MSN, APN, FNP-BC
Cheryl A. Glass MSN, WHNP, RN-BC

The first book to encompass adult-gerontology practice guidelines for primary care, this comprehensive resource is designed for health care practitioners specializing as adult-gerontology nurse practitioners (A-GNP). It provides current national practice guidelines for delivering high-quality primary health care to adult, older adult, and pregnant patients in the outpatient setting. Includes the all-important Beers Criteria, deprescribing algorithms, 27 new entries, and geriatric syndromes.

Practice-Based Scholarly Inquiry and the DNP Project, 2nd Edition
Cheryl Holly, EdD, RN, ANEF, FNAP

Advanced nursing practitioners who conduct practice-based studies will welcome this innovative text designed specifically to meet their clinical inquiry and research needs. It is the only book to address the complexities of inquiry from a practice/project, rather than research, perspective.

Application of Nursing Informatics
Competencies, Skills, and Decision Making
Carolyn Sipes, PhD, CNS, APN, PMP, RN-BC, FAAN

Application of Nursing Informatics is designed specifically for needs of the already-licensed nurse enrolled in the Nursing Informatics course in the RN to BSN program. Unlike other texts that assume no prior nursing practice experience, this text addresses the foundations of Nursing Informatics competencies at the point of where the already-practicing nurse is in his/her career and provides the basis for higher-level critical thinking and decision-making.

Compassion Fatigue and Burnout in Nursing, 2nd Edition
Enhancing Professional Quality of Life
Vidette Todaro-Franceschi, RN, PhD, FT

Compassion fatigue afflicts nurses working in all caring environments and has become a serious issue in health care institutions nationwide. This is the only book to specifically address this challenge and the related syndrome of burnout in nursing. It presents a unique healing model designed to identify, treat and, where possible, avert compassion fatigue with holistic strategies and action plans that help cultivate a healthier, more satisfying work environment.

Adult-Gerontology Acute Care Practice Guidelines
Catherine Harris, PhD, MBA, AG-ACNP

The only adult-gerontology ACUTE CARE practice guidelines book available, this title provides advanced practice providers the evidence-based clinical information they need to be successful in their practice. This text provides a systems-based guide to the 100 most common conditions providers will see in their practice, covering common acute and critical care topics such as acute lung and kidney injuries, sepsis, stroke, hepatitis, COPD, heart and kidney failure, and much more.

New

Essentials of Fetal and Uterine Monitoring, 5th Edition
Michelle Murray PhD, RNC-OB
Gayle Huelsmann, BSN, RNC-OB, C-EFM
Nanci Koperski RNC, LNCC, MBA, MHSA

This comprehensive guide and workbook on fetal monitoring, now in its fifth edition, provides an exhaustive compilation of evidence-based and up-to-date knowledge on the signs of fetal well-being and compromise obtained from fetal monitoring. Newly revised and updated, it covers clear and concise instruction in the use of fetal monitors, and features an entirely new section on normal vs. excessive uterine activity.
Linda Wilson, PhD, RN, CPAN, CAPA, BC, CNE, CHSE, CHSE-A, ANEF, FAAN
Ruth A. Wittmann-Price, PhD, RN, CNE, CHSE, ANEF
This is the first practice manual to help health care simulation educators in the U.S. and internationally to prepare for the certification exam in this burgeoning field. The second edition is revised to reflect the latest test blueprint and encompass key evidence-based research that has been conducted since the first edition was published. Authored by noted experts in simulation and education, the book distills the information most likely to be included on the exam.

Leadership and Management Competence in Nursing Practice
Competencies, Skills, Decision-Making
Audrey M. Beauvais, DNP, MSN, MBA, RN, CNL
Written in a clear and concise manner, this text provides a core framework and useful skills and strategies to successfully lead nursing and healthcare forward. Content builds on the framework of AACN Essentials of Baccalaureate Education, IOM Competencies, and QSEN KSAs: Each chapter is filled with case scenarios to promote critical-thinking and decision-making, and self-assessment tools enable nurses to evaluate their current strengths, areas for growth, and learning needs.

Essential Knowledge for CNL and APRN Nurse Leaders
Cynthia R. King, PhD, MSN, NP, RN, CNL, FAAN
Sally Gerard, DNP, RN, CDE, CNL
Carla Gene Rapp, PhD, MNSc, RN
This is the first text to address not only the Clinical Nurse Leader role but also the wider scope of nursing leadership through the lens of the Clinical Nurse Leader. Written for CNL programs in the US and beyond, the book is organized according to the test blueprint of the AACN’s content outline for the latest CNL certification exam.

Delivering Culturally Competent Nursing Care, 2nd Edition
Working with Diverse and Vulnerable Populations
Gloria Kersey-Matusiak, PhD, MSN
Delivering Culturally Competent Nursing Care provides all the information nursing students and nurses need to provide culturally competent care to their patients. The 2nd edition continues the discussion about the need for cultural competency in the provision of health care, and provides an approach for nurses to self-evaluate their readiness and ability to respect other’s differences when providing care.

Adult-Gerontology Acute Care Nurse Practitioner Q&A Review
Dawn Carpenter, DANP, ACNP-BC
The only book designed specifically to prepare students for the Adult-Gerontology Acute Care Nurse Practitioner (AG-ACNP) exams, this unparalleled review details the step by step journey from classroom to patient room and beyond. With more than 630 unique questions, this review contains completely up-to-date and evidence-based exam preparation. Practice questions are organized into body system review, special populations, and legal/ethical issues, and culminate in a 175-question practice test that represent the length, variety, and complexity of board exam questions.

Fetal and Neonatal Physiology for the Advanced Practice Nurse
Amy Jnah DNP, NNP-BC
Andrea Nicole Trembath MD, MPH, FAAP
Written for neonatal and pediatric nurse practitioner students, this unique text explores the developmental physiology of premature and term infants and presents common diseases that affect this specialized population. It offers an innovative and engaging approach to learning normal and abnormal physiology to prepare students for their roles as resourceful and informed problem-solvers, caregivers, and health promoters.

Advanced Practice Nursing Roles, 6th Edition
Core Concepts for Professional Development
Kathryn A. Blair, PhD, FNP, FAAN

The sixth edition of this time-tested text on advanced nursing role development is completely updated to encompass the full complement of current APRN practice roles. Reflecting the evolving spheres of the DNP and CNL, it illuminates in greater depth the transition into practice of APRN master’s and doctoral students, and emphasizes the APRN’s all-important role in influencing health policy, global health, and differentiated APRN practice and leadership roles within interprofessional teams.

Nurses Making Policy, 2nd Edition
From Bedside to Boardroom
Rebecca Patton, DNP, RN, CNOR, FAAN
Margarete Zalon, PhD, RN, ACNS-BC, FAAN
Ruth Ludwick, PhD, RN, CNS, FAAN

Written by exceptional nurse leaders in practice, education, and politics, this is a practical “how-to” guide written to help advanced students and nurse leaders develop health policy skills to advocate for patients from the bedside to the larger political arena. Co-published with the ANA, the book examines the pivotal role of nurses involved in health policy and describes the requisite steps for facilitating policy change.

Transitioning from RN to MSN
Principles of Professional Role Development
Brenda Scott, DNP, RN
Mindy Thompson, MSN, RN, CNE

This textbook specifically designed for RN to MSN programs discusses the transition of the Master’s prepared nurse into the multitude of potential nursing roles available at this level. The book addresses the key concepts of role transition including preparation for the role, ethical practice, theory application, and discussion of terminal degree options.

Manual of Men’s Health
Primary Care Guidelines for APRNs & Pas
Susanne A. Quallich, PhD, ANP-BC, NP-C, CUNP, FAANP
Michelle Lajiness, MSN, FNP-BC
Kenneth Mitchell, MPAS, PA-C

Written by and for NPs and PAs in the primary care setting, this is the first clinical reference to focus solely on managing health concerns that are specific to men. Filling a significant gap in knowledge about this patient group, the user-friendly reference delivers evidence-based guidelines for the day-to-day management of male patients.

A Handbook for Caring Science
Expanding the Paradigm
William Rosa, MS, RN, LMT, AHN-BC, AGPCNP-BC, CCRN-CMC
Sara Horton-Deutsch, PhD, RN, PMHCNS, FAAN, ANEF
Jean Watson, PhD, RN, AHN-BC, FAAN

This groundbreaking work is an encyclopedic reference on the full spectrum of Human Caring Science. With contributions from highly accomplished scholars and practitioners from six continents, it spans the evolution of Caring Science from its origins 40 years ago through its ongoing innovation and development and into the future, bringing multigenerational perspectives to Caring Science and demonstrating its ethical nursing applications across cross-cultural settings worldwide.

Advanced Health Assessment of Women 4th Edition
Clinical Skills and Procedures
Helen Carcio, MS, MED, AMP-BC, R. Mimi Secor, DNP, FNP-BC, NCMP, FAANP

Written for nurse practitioners, physician assistants, nurse midwives, and other primary care providers, this new edition continues to deliver the clinical skills required to care for the unique healthcare needs of women. This text delves into the growing role of the advanced practice clinician, establishing a foundation for and an understanding of the rationale behind the techniques and procedures described.
New

Care Coordination in the NICU
Implementing Family-Centered Nursing Care for Optimal Outcomes
Sara L. Mosher, RN, MSN, MHA
This innovative clinical practice resource for neonatal nurses embodies family-centered care strategies for optimal outcomes through every phase of the NICU experience. Each chapter focuses on a particular area of the perinatal/neonatal family journey, and includes current medical research, clinical examples, and recommendations for best practice alongside case studies that depict families experiencing a perinatal challenge.

The APRN’s Complete Guide to Prescribing Pediatric Drug Therapy 2019
Mari J. Wirfs, PhD, MN, APRN, ANP-BC, FNP-BC, CNE
This prescribing guide, organized uniquely by diagnosis, facilitates speedy drug information retrieval for advanced health care providers in all settings involved in the primary care management of newborns through adolescents. Delivered in a concise, easy-to-read format, the guide encompasses pharmacotherapy regimens for more than 450 clinical diagnoses and includes cross-referenced generic and trade names for ease of use. Key clinical information, including lab values to monitor, patient education points, and safety information for parents and caregivers is highlighted throughout.

Ruth A. Wittmann-Price, PhD, RN, CNE, CHSE, ANEF
Maryann Godshall, PhD, CNE, CCRN, CPN
Linda Wilson, PhD, RN, CPAN, CAPA, BC, CNE, CHSE, CHSE-A, ANEF, FAAN

The CNE review, designed for use by both novice and expert nurse educators, incorporates all content areas designated by the National League for Nursing (NLN) as essential knowledge in the field. It is formatted to closely reflect the test blueprint. Valuable features include case studies and critical thinking questions, Evidence-Based Teaching Practice boxes, “Teaching Gems” offering advice from practice experts, review questions at the end of each chapter, and a practice CNE exam with answers and rationales.

Behavioral Pediatric Healthcare for Nurse Practitioners
A Growth and Developmental Approach to Intercepting Abnormal Behaviors
Donna Hallas, PhD, PPCNP-BC, CPNP, PMHS, FAANP

This pediatric primary care text expands on the crucial role of the healthcare provider to assess, identify, and intercept potential behavioral health problems. The content in this book is built on strategic, evidence-based measures to evaluate and treat behavioral health during each well-child visit across the pediatric life span and restore order to their patients and their families.

Introduction to Quality and Safety Education for Nurses, 2nd Edition
Core Competencies for Nursing Leadership and Management
Patricia Kelly, MSN, RN
Beth A. Vottero, PhD, RN, CNE
Carolyn Christie-McAuliffe, PhD, FNP

This second edition of Introduction to Quality and Safety Education for Nurses has been thoroughly updated with a leadership and management perspective while retaining core content that unpacks the knowledge and skills required of entry-level nurses in each of the six Quality and Safety Education for Nurses (QSEN) domains. Contributions from nurses, physicians, pharmacists, librarians, attorney, and other health care professionals throughout the U.S. and beyond underscore the interprofessional focus grounding health care practice today.

Palliative Care Nursing, 5th Edition
Quality Care to the End of Life
Marianne Matzo, PhD, APRN-CNP, FPCN, FAAN
Deborah Witt Sherman, PhD, APIN, ANP-BC, ACHPN, FAAN

Based on the need to humanize rather than medicalize the illness experience for patients, this text delves into palliative care beyond the specific diseases affecting the patient. Instead, content focuses on the whole person and family. This new edition brings an increased focus on outcomes, benchmarking progress, and goals of care, and expounds upon the importance of the cross-disciplinary collaboration.

Nursing Informatics for the Advanced Practice Nurse, 2nd Edition
Patient Safety, Quality, Outcomes, and Interprofessionalism
Susan McBride, PhD, RN, CPHIMS
Mari Tietze, PhD, RN-BC, FHIMSS

The only text written for Advanced Practice Nurses, this newly revised resource takes an expansive, open, and innovative approach to thinking about technology. Every chapter is highly practical, filled with case studies and exercises that demonstrate how the content presented relate to the contemporary healthcare environment.

Teaching with Technologies in Nursing and the Health Professions 2nd Edition
Strategies for Engagement, Quality, and Safety
Wanda Bonneto, PhD, GNP-BC, ANEF
Katharine Smith, PhD, RN, ACNS-BC, CNE
Christine Hober, PhD, MSN, RN-BC, CNE

Written for new and aspiring nursing faculty, this unique book delivers broad teaching principles alongside strategies for selecting the best technology. The teaching principles discussed in this text illuminate the changing technologies used in education and practice, and provide strategies for selecting the best technology to obtain a specific learning objectives, assignments, and outcomes.
New

**Disaster Nursing and Emergency Preparedness, 4th Edition**
Tener Goodwin Veenema, PhD, MPH, MS, CPNP, FAAN

Featuring the most current, valid, and reliable evidence-based content available, this three-time AJN winner once again presents an unparalleled resource for disaster and emergency preparedness. This newly updated text promotes competency-based expert nursing care during disasters and positive health outcomes for small and large populations consistent with the Federal Disaster Response Framework.

9780826144171  $150.00  981 pp | Paperback  July 2018

**Guided Participation in Pediatric Nursing Practice**
Relationship-Based Teaching and Learning with Parents, Children, and Adolescents
Karen Pridham, PhD, RN, FAAN
Michele Schroeder, PhD, RN, CPNP
Rana Limbo, PhD, RN, CPLC, FAAN

This authoritative publication delivers an in-depth examination of Guided Participation (GP), a dynamic process of teaching and learning that helps others become competent by providing expertise through working alongside the learner. Consistent with client- and family-centered practice, this fresh approach to nurse/client teaching is drawn from a broad span of disciplines, including education, social and cultural anthropology, relationship-based attachment-caregiving theory, and developmental science.

9780826140432  $85.00  458 pp | Paperback  May 2018

**Rapid Access Guide for Triage and Emergency Nurses**
Chief Complaints with High Risk Presentations
Lynn Sayre Visser MSN, BS, RN, CEN, CPEN, CLNC
Anna Sivo Montejano, DNP, MSNEd, RN, CEN

Designed to assist in rapidly recognizing potential life-threatening or life-altering conditions, this pocket-sized manual focuses on patient-driven chief complaints. Content covers each body system and its most common chief complaints along with first-line questions, assessments, and interventions to prompt the user. Red flag findings, easily identified by the flag icon, denote critical signs and symptoms, while a light bulb icon helps the user locate key tips.

9780826196279  $35.00  230 pp | Spiral bound  July 2018

**Caring Science, Mindful Practice, 2nd Edition**
Implementing Watson’s Human Caring Theory
Kathleen Sitzman, PhD, CNE, ANEF
Jean Watson, PhD, RN, AHN-BC, FAAN

This seminal work, based on the philosophy of Watson’s Human Caring Theory, is designed to help students and practitioners of nursing to simplify Watson’s complex teachings and integrate them into everyday practice. The revised second edition includes an abundance of new micro-practice examples for each of the 10 Caritas Processes®, practical exemplars from Dr. Sitzman’s research, enabling readers to cultivate Caritas and mindfulness on a daily basis, and new case studies demonstrating how others have implemented Human Caring Science into everyday life and work.

9780826135551  $45.00  188 pp | Paperback  May 2018

**Case Studies in Global Health Policy Nursing**
Regina Dorman PhD, APRN
Mary De Chesnay, PhD, RN, PMHCNS-BC, FAAN

Designed specifically for graduate nursing students, this text explores the implications of global initiatives designed to eradicate disease and promote physical and mental health. Presented in a consistent format for ease of use, each case study includes an overview, background, relevant research, and in-depth information on its significance as a critical global issue.

9780826171191  $80.00  380 pp | Paperback  June 2018

**Quality Caring in Nursing and Health Systems, 3rd Edition**
Implications for Clinicians, Educators, and Leaders
Joanne Duffy, PhD, RN, FAAN

Written for nursing students, clinicians, educators, and leaders, this text delivers a detailed framework of the Quality Caring Model®, a theory that analyzes the relationships among the self, the community served, patients and families, and the health care team. Chapters apply the model to patients and families and provide optimal learning strategies to inform quality-caring competencies. Case studies, interviews, exemplars, relevant lessons, and suggested improvements woven throughout the text push the model further than theory and into practice.

Rural Nursing, 5th Edition
Concepts, Theory, and Practice
Charlene A. Winters, PhD, RN
Helen J. Lee, PhD, BS
The text is unique when compared to other titles in its specific focus on rural nursing concepts, theory, research, practice, education, public health and health care delivery from a national perspective. The content of the 5th edition includes updated and 22 NEW chapters that expand the rural nursing theory base and research, and add to increased understanding of rural nursing practice, rural nursing health care delivery, rural nursing education, and rural public health.

Complementary and Alternative Therapies in Nursing, 8th Edition
Ruth Lindquist, PhD, RN, FAHA, FAAN
Mary Frances Tracy, PhD, RN, CCNS, FAAN
Mariah Snyder, PhD, RN, FAAN
The reorganized and expanded eighth edition of this highly acclaimed text continues to deliver innovative, practice guidelines for evidence-based complementary and alternative therapies that can easily be incorporated into curriculum and applied directly to practice. It describes holistic treatments that are culturally appropriate for clients across the lifespan and provides N-CLEX®-relevant content and content relevant for preparation of advanced practice nurses.

Grant Writing Handbook for Nurses and Health Professionals, 3rd Edition
Barbara Holtzclaw, PhD, RN, FAAN
Carole Kenner, PhD, NNP, FAAN
Marlene Walden, PhD, APRN, NNP-BC, CCNS
This accessible, hands-on text, for new grant writers and seasoned health researchers, educators, and clinicians alike, illuminates the process of writing a persuasive request for funding from start to finish. Packed with practical tips for dealing with common pitfalls besieging grant seekers, the text progresses step-by-step from establishing the need for the grant through disseminating grant findings. This third edition is distinguished by key information about newer grant mechanisms and a fresh focus for foundation and corporate grants. It also includes updates on electronic submissions and web resources.

Family Practice Guidelines, 4th Edition (Book + Free App)
Jill C. Cash, MSN, APN, FNP-BC
Cheryl A. Glass, MSN, WHNP, RN-BC
This bible of family practice for primary care students and clinicians provides current national practice guidelines for professional standards of care across the life span. Concise and clearly organized, the resource features detailed, step-by-step instructions for physical examinations and diagnostic testing in the outpatient setting, information on health promotion, care guidelines, dietary information, information on culturally responsive care, patient resources, and abundant patient education handouts.

Clinical Analytics and Data Management for the DNP, 2nd Edition
Martha L. Sylvia, PhD, MBA, RN
Mary F. Terhaar, DNSc, RN, FAAN
Strong data management knowledge and skills are a requirement for every DNP. This second edition includes eleven new chapters covering the use of big data analytics, ongoing progress toward value-based payment, the Affordable Care Act and its future, shifting of risk and accountability to hospitals and clinicians, advancement of nursing quality indicators, and new requirements for Magnet® certification. A new progressive case study illustrates multiple techniques and methods throughout the chapters.

Academic Leadership in Nursing
Effective Strategies for Aspiring Faculty and Leaders
Leslie Neal-Boylan PhD, RN, CRRN, APRN, FNP-BC
Sharon Chappy PhD, RN, CNOR
Sharron E. Guillett PhD, RN
Written for instructors looking to expand leadership skills within their teaching roles, those seeking more formal leadership positions, and novice academic leaders, this text delivers a first-hand perspective on what it takes to be a faculty member and nurse academic administrator across public, private, and for-profit settings, and provides an in-depth understanding of the key differences among them.

Advanced Public and Community Health Nursing Practice, 2nd Edition
Population Assessment, Program Planning and Evaluation
Naomi E. Ervin PhD, RN, PHCNS-BC, FAAN
Pamela Kulbok DNSc, RN, APHN-BC, FAAN
Written by advanced practice public/community health nurse experts, this comprehensive resource for advanced practice nursing students and clinicians builds upon the core foundations of practice: social justice, interdisciplinary practice, community involvement, disease prevention, and health promotion. This new edition includes additional content on culture and diversity, in-depth theory and conceptual frameworks, doctoral preparation, and policy.

Handbook of Clinical Nursing
Medical-Surgical Nursing
Ronald Hickman, PhD, ACNP-BC, FNAP, FAAN
Celeste M. Alves, DNP, MSN, RN
Joyce Fitzpatrick, PhD, MBA, RN, FAAN, FNAP
Designed for recently-graduated RNs, and nurses transitioning to a new clinical area, this extensive clinical reference is the best resource to provide essential information to nurses working on the MedSurg unit. Entries from this text have been selected from the larger resource, A Guide to Mastery in Clinical Nursing: The Comprehensive Reference.

Middle Range Theory for Nursing, 4th Edition
Mary Jane Smith PhD, RN, FAAN
Patricia Liehr PhD, RN
The fourth edition of this invaluable publication on middle range theory in nursing reflects the most current theoretical advances in the field. This user-friendly text stresses how theory informs practice and research in the everyday world of nursing. Divided into four sections, content sets the stage for understanding middle range theory by elaborating on disciplinary perspectives, an organizing framework, and evaluation of the theory.

Handbook of Clinical Nursing
Pediatric and Neonatal Nursing
Celeste M. Alves, DNP, MSN, RN
Ronald Hickman, PhD, ACNP-BC, FNAP, FAAN
Joyce Fitzpatrick, PhD, MBA, RN, FAAN, FNAP
Designed for recently-graduated RNs, and nurses transitioning to a new clinical area, this extensive clinical reference is the best resource to provide essential information on the pediatric and neonatal specialty areas. Entries from this text have been selected from the larger resource, A Guide to Mastery in Clinical Nursing: The Comprehensive Reference.

Advanced Nursing Research Critiques
A Model for Excellence
Karen Baue, DNP, RN, MPA, NEA-BC
Joyce J. Fitzpatrick, PhD, MBA, RN, FAAN
This is the first resource to provide APRN students and practicing clinicians with a step-by-step guide to critically analyze evidence from research studies. As part of a profession that relies on best evidence, nurses need to be able to effectively assess research articles. Equipped with these skills, nurses will lead an informed practice and improve patient care.

Handbook of Clinical Nursing
Critical and Emergency Care
Ronald Hickman, PhD, ACNP-BC, FNAP, FAAN
Celeste M. Alves, DNP, MSN, RN
Joyce Fitzpatrick, PhD, MBA, RN, FAAN, FNAP
Designed for recently-graduated RNs, and nurses transitioning to a new clinical area, this extensive clinical reference is the best resource to provide essential information on the Critical Care and Emergency Care specialty areas. Entries from this text have been selected from the larger resource, A Guide to Mastery in Clinical Nursing: The Comprehensive Reference.
New

Cardiac Diagnosis for Acute Care
The NP's and PA's Guide to a Comprehensive History and Deciphering the Differential
Leslie Janik, MSN, ARNP, ACNP-BC
Written specifically for both the novice and experienced cardiovascular clinician in acute care settings, this is the only resource to focus on the art of conducting an in-depth patient history. Quite often, a patient will tell their first provider one thing, and their second provider something else, even when asked the exact same question. If recorded and interpreted correctly, a clinician can use a comprehensive history alone to obtain a correct diagnosis without exhaustive and expensive evaluations.

9780826141262 $55.00 272 pp | Paperback

A Guide to Disseminating Your DNP Project
Marilyn Smith-Stoner, PhD, MSN, RN
This book provides step-by-step instruction for all methods of dissemination, from print to digital media. The text provides detailed instructions for each type of dissemination and highlights specific resources and their benefits and drawbacks. It includes explanations of how to use social media, web-based platforms, and alternative artistic means.

9780826133168 $55.00 242 pp | Paperback

CMSA's Integrated Case Management
A Manual For Case Managers by Case Managers
Kathleen Fraser, MSN, MHA, RN-BC, CCM, CRRN
Rebecca Perez, RN, BSN, CCM
Corine Latour, PhD, RN
Written for Case Managers by Case Managers, this new manual presents the Case Management Society of America (CMSA) tested approach towards systematically integrating physical health and mental health case management principles for nurses and other health professionals.
